

Dear parents,

The administration and staff of Miras International School are happy to welcome you in the new academic year! We remind you that every student should purchase the stationery by August 31. They facilitate an effective learning process. Unpreparedness for the lesson (even partial) is considered as a violation of the disciplinary policy. We remind you that students are not supposed to use the option, “calculator” in mobile phones.

In each lesson, a student should have a pen, a pencil, a ruler and an eraser (a rubber).
